I believe the children are the future,  
teach them well and let them know  
things may be all shit right now,  
but it gets worse when your old

Happy meals and Easter bunny,  
great moments indeed  
Enjoy it now while you still can  
cuz I believe

I believe in miracles  
and dreams can come true  
especially the ones  
where your teeth fall out  
or you're naked at school

even sleeping brings us pain  
we never get no relief  
But that's how it's meant to be  
that's what I believe

What ever happen to trust?  
come on people  
It's what we need  
Stop confusing the issues with facts  
Cuz me for one,  
I still believe

I believe in the written word  
if it's on paper it's true  
it's all gospel as far as I'm concerned  
if somebody wrote it  
it's good enough for me

why be so suspicious of the ones  
who tried to keep you informed?  
they give you the things you need  
that's why I believe
