

Vandals, The "Little Weirdo"

Visit "[Little Weirdo](#)" on MotoLyrics.com

The little weirdo down the street says he's making a
rocket ship with household items, so we can't find him
Igloo cooler and some gasoline, soil samples and
some magazines for the long ride home
Yeah, yeah, yeah

Set the controls for the farthest star and fly away little
weirdo
No one here is going to miss you much but I wish you
luck on your trip- run away.

Planet earth never offered much, just culture shock
and a lot of strange looks from the native assholes
Ground control there's no one there, we haven't heard
a word from his interstellar patio chair

Yeah, yeah, yeah

Set the controls for the farthest star and fly away little
weirdo
No one here is going to miss you much but I wish you
luck on your trip-
run away. Fly away, fly away

Run away, run away, fly away, fly away

The little weirdo left today he said we're doomed but
from his view it's so beautiful

Yeah, yeah, yeah

Set the controls for the farthest star and fly away little
weirdo
No one here is going to miss you much but I wish you
luck on your trip- run away.
