one two three four - master race in outer space - they  
had to leave this earthly place - all the allies and  
the Russians too - this nazi shit don't do - this nazi  
shit don't do - this nazi shit don't do - so we launch  
them to the moon - the secret moon base was nearly  
complete - so we put the plan in motion for the space  
age feat - Germany was about to fall - they loaded  
up the rockets and launched them all - this nazi shit  
don't do - this nazi shit don't do - this nazi shit  
don't do - so we launched them to the moon - master  
race in outer space - they had to leave this earthly  
place - all the allies and the Russians too - this  
nazi shit don't do - this nazi shit don't do - this  
nazi shit don't do - so we launched them to the moon  
- one small step for man - one huge step for mankind  
(sieg heil baby) - one small step for man - one huge  
step for mankind (sieg heil baby) - this nazi shit  
don't do - this nazi shit don't do - this nazi shit  
don't do - so we launched them to the moon - master  
race in outer space - they had to leave this earthly  
place - all the allies and the Russians too - this  
nazi shit don't do - this nazi shit don't do - this  
nazi shit don't do - so we launched them to the moon
