I live in the land of the freeways - Home of the smog
and traffic - The sun and the air - The mountains and
sea - Streams and palm trees - The valleys.
.. - The canyons... - The mountains.
.. - The beaches... - Hollywood,
downtown, the valley - Are all places you should see
- The city at night, the city so bright - a short time
away a campfire sight - The missions.
.. - The mansions... - The farmlands.
.. - Punk rock bands... - People come from all over
- to work and live in the sun - It's always so nice
- my own paradise - The desert ,
the snow - So many places to go - The people.
.. - The places... - The weather... - The faces... - That's
for me
