Come here little boy - I'm a friend of your mother's  
- I'll give you a candy bar if you get in the car -  
Okay - He's got his camera - and deep seeded  
obsessions  
- His nordic heritage - and sexual frustrations - He  
wants to be Lief Ericksson - to discover America -  
but he's not - He's just a photographer - who likes  
little boys in viking suits - He likes to take the  
little boys - walking home from school - in his  
neighborhood  
- Take them to his studio - and dress them up in viking  
suits - Words of wisdom - Each one rings true -  
Watching  
little brothers could happen to you - So don't grow  
up to be a guy - Who takes pictures of little boys  
in viking suits - Come here little boy
