Mother Mary, please answer my prayers

I want to run free and I need you to be there

I'm going to take some chances I never took before

I've got to live my life and I'm going to risk it all

I look to the sky and suddenly I know

I've made up my mind, I'm never letting go

Chorus :

It's the power I want, it's the power I need

To make me run, to make me see for real

It's the power I want, to let me do what I feel

To make me run, to make me be for real

Unlike a miracle or a wish upon a star

The power to be me is all I need to start

To do things I'll never regret and to leave the rest
behind

[Chorus] x 2

It's the power I want, it's the power I need

To make me run, to make me see for real

It's the power I want, to let me do what I feel

To make me run, to make me be for real

It's the power I want, it's the power I need

To make me run, to make me see for real
It's the power I want, to let me do what I feel
To make me run, to make me be for real
You're the one to only help me
The only one, so help me, help me
Give it to me, to me, to me
Oh Mother Mary, please, please, please
Please just help and watch me shine
Then watch the power make me fly away
Mother Mary, Mother Mary

[Chorus] x 2

It's the power I want, it's the power I need
To make me run, to make me see for real
It's the power I want, to let me do what I feel
To make me run, to make me be for real
It's the power I want, it's the power I need
To make me run, to make me see for real
It's the power I want, to let me do what I feel
To make me run, to make me be for real
