

## State Of Conviction

### "In God We Rust"

Visit "[In God We Rust](#)" on MotoLyrics.com

Lost in the cost trying to forget  
Paying for the past like an everlasting war debt  
You see American dreams aren't what they seem  
Its all a facade in god we trust  
Lust and greed what we feed poverty  
And need narcotics alchohol and a dependency  
All over America all over the screen  
This is what they teach us in disgust we trust  
Shake 'em down take 'em down break their foundation  
This nation is a demon far beyond salvation  
Soldiers Of Misfortune with a wall of distortion  
Equipped with a voice set to combust  
Rust sets in lets in Tetanus  
Soon infection renders you helpless  
Your exsistence lacks resistance  
Fool's Complacent in god you trust  
Let it rust
