Backseat love, backseat love  
Ba-backseat love, backseat love

Get a job done in the parking lot  
That is true love, that is true love.  
Let's get a job done in the parking lot,  
In the back seat of, in the backseat of your car.

Let's get it jumping in the parking lot,  
That is true love, that is true love.  
Let's get a job done in the parking lot,  
In the back seat of, in the back seat of your car.

Two O'Clock - Planet Rock,  
Playing on the radio in my new drop top.  
Same sign as last night:  
"Credit cards or cash will take you to new heights."  
Looking left, looking right, just because I wanna,  
No cops around, I'm standing on the corner.  
Suddenly, there she was.  
(I hope you got the right money)  
Get my keys, and we're off.

Get a job done in the parking lot,  
That is true love, that is true love.  
Let's get a job done in the parking lot,  
In the back seat of, in the backseat of your car.

Let's get it jumping in the parking lot,  
That is true love, that is true love.  
Let's get a job done in the parking lot,  
In the back seat of, in the back seat of your car.

[Spankrock]  
Say she ordinary, visionary,  
Automatic, innovation,  
Dipstick, stick shift,  
Trouble - double penetration,  
Smart car getting all ignorant,  
Look how far your back is bent,  
And I can't stop, won't stop,

Till the rims pop off,  
Till the tears drop off.

I can't wait to get at the crib  
Get back to biz  
Get your ass all red  
My love is real  
So I copped a feel  
And start the drill  
Don't stop, if the cops knock  
You could take the wheel of skin  
And be the first girl to ever, ever give good head.

Get a job done in the parking lot,  
That is true love, that is true love.  
Let's get a job done in the parking lot,  
In the back seat of, in the backseat of your car.

[Lady Tigua]  
You can't go down if you talk a lot.  
Backseat love, backseat love.  
We can't jam if you talk a lot,  
In the taxi, in the backseat of your car.

We just can't funky if you talk a lot,  
Backseat lover, backseat lover.  
We can't break it down if you talk a lot,  
Keep a taxi, in the backseat of your car.

Get a job done in the parking lot,  
That is true love, that is true love.  
Let's get a job done in the parking lot,  
In the back seat of, in the backseat of your car.

In the backseat, in the backseat of your car.
