Now whether you come from yard or whether you come
from London
Wanna hear this one on your radio station
Conscious lyrics have to reach number one
Teach we come to teach we come to teach the nation
lyrically lyrically
Inspiration
Love and nuff unity with lots of education
We'll take it by the hundred take it
One by one
This is ragga with the inspiration
I can only sing of destruction today cause my people
are shedding blood
Everywhere
There is no happy song to sing when every time I'm
frowning
I watch my back as I pass through cause they're aiming
their bullets at me
Jah say he see us through so I knew that the wicked
would perish
Never forget your dreams life is full of ups and downs
yea
No matter how hard it seems never forget your dreams
Just take it day by day by day by day by day by day
Day by day by day by day by day
We laugh at them for they know their day is coming
The wicked draw their sword to slay the upright
The wicked bend their bows to cast down the poor
Yet their swords shall pierce them in their own hearts
Never you lose your faith things and times will have to
change yea
Say you might be down today but never you lose your
faith
Just take it day by day by day by day by day by day
Day by day by day by day by day
Boom boom boom raggamuffin done tell you this yah
tune yah a boom
Boom boom boom rugu rugu done tell you this yah
tune yah a boom
Junior going in a the place and everybody say boom
Boom this yah boom this yah tune yah a boom raga

muffin on the version so it must
Be a boom
Boom this boom this yah tune yah a boom boom boom
This is ragga ragga telling you bout the boom
Worry not of tomorrow for we know not what a day may
bring
Faithful are the wounds of a brother than the kisses
from an enemy
Pride is their chain of honor violence is the garment
that covers them
My feet were at that stumbling point but I didn't slip
Never forget your dreams life is full of ups and downs
yea
Say no matter how hard it seems never forget your
dreams
Let's take it day by day by day by day by day by day
Day by day by day by day by day
So ragga muffin junior gong with a next element keep
the vibes in a the music
