Release date: 1. November 2000

Album: Have a zididada day

She's a lady from Wonderlan - Elvira is her name

She will lay down any man - It's her favourite game

(bridge)

She will down by your side

She will whisper your name

Everytime you stay the night

Ohh it's her favorite game yeah

(chorus)

Cause every little thing she wants from me

Every little thing she takes for free

And I know it makes her wonder

Cause deep inside I know she is a fake

With every little heart she tries to break

And I know it makes her wonder

Now once I was Elvira's flame

I thought I was

But I got only myself to blame

I couldn't get enough

(bridge)

&

(chorus)

Deep inside she'll deny her pain

I don't know what she tries to gain

(chorus)
