She is wondering where I am
(I know that somebody)
Wondering where to find her men
(Whisper in your ear)

Loneliness and suffering
(Telling you lies)
Among the feelings which I bring
(I am not allowed to hear)

I can't live without you
I can't breathe without you
I can't dream without you
You know I care about you

And I will never let you down
I will always be around
No I could never walk away
And I will always fight to stay

I know that somebody
Whisper in your ear
Telling you lies
I am not allowed to hear

Imagine sun without the rain
Imagine fun without the pain
I hope and pray you'll understand
Without your love I am half a man

I can't live without you
I can't breathe without you
I can't dream without you
You know I care about you

And I will never let you down
I will always be around
No I could never walk away
And I will always fight to stay
