I'm a face full of pimples
Heavy lenses, hay hair
And bad breath mouth

Daft dressed, slow thinking
And the rails on my teeth
Makes me wanna hide

I'm sitting on the beach
Watching the water
How lonely I am longing for you

I'm all alone out here
Watching the moonlight
I'm sitting on the beach

Waiting for you, baby, baby
You baby, baby, aa
(You're my sweet dream, you're my fantasy)

You baby, baby
You baby, baby
(Come on with me)

I'm a face full [unverified]

I'm sitting on the beach
Watching the fire
How lucky I am holding your hand

How perfect this is now
Watching your eyes glow
I'm sitting on the beach

Kissing with you [unverified]

I'm a face full [unverified]
