(Verse 1)

Wait, I can't feel you
Numb, From the pain you include
Trust, It always seems to cut right through me
Cold, I always shiver
Taste, It's always bitter
Love, It always seems to cut right through me

(Chorus)

Cause with you, I want you to know i got this under
control
I know, I know
Cause with you, Anything goes and the pain is slow
I know, I know

(Verse 2)

Haste, To inflict discomfort
Fake, Your like no other
Choke, On all the lies that your feeding
Cry, As if your aching
Lie, To calm the waking
Crawl, Into this hole you left me

(Chorus)

Cause with you, I want you to know i got this under
control
I know, I know
Cause with you, Anything goes and the pain is slow
I know, I know
