### "The Contract"

In this moment  
Spreading black wings now  
Losing yourself  
To the thrill of the game  
Your dying emotions are feeding the flame

Can't turn back, it's too late to run now  
Stand and face your fate  
Time to pay with your soul  
(You're) caught inside the spell

Spirits lasts  
Forever screaming  
Into new dimensions  
Lurking, crawling  
Choking you  
Ghost inside your head

Great thanks to Ludwig for sending this VERY RARE to find lyrics.
