A people did you hear
New time & age, new time & age
And the children too
New time & age, new time & age

So put away all your mistakes of yesterday
Come gain, try and make new friend
We're going forward 'til you top, you top, you never
stop
Going forward, mi sey yu feel the beat, you feel it drop

New time & age
Liberate my people now
New time & day
New time & age
New time & day

The sixties was rough, the seventies was tough
The eighties were corrupt
The nineties must be the time of change
Get your mind together

Don't watch the weather
You think things will get better
It's not the end, tell you people
Got to do a lot of other things, yeah

New time & age
Live it up, live it up, live it up
New time & day
New time & age
The struggle go on
New time & day

Struggle for you, struggle for you
Struggle for you, independence
Struggle for you, struggle for you
Struggle for you, freedom
Struggle for you, struggle for you
Struggle for you spread along now

New time & age

Fulfill prophecy
New time & day
New time & age
A mean no wait no more
New time & day

Today everything is copacetic
Tomorrow you sad and blue
Tell me what does it profit people
To speak of and not do

New time & age
Hey, tell it to the people
New time & day
And the children too
New time & age
Everyone got something to do
New time & day

New time & age
Tick tock, tick tock, tick tock, tick tock
New time, new time
New time, new time & age
New time, new time
New time, new time & day

New time & age
New time & day
New time & age
New time & day

New time, new time
New time, new time & age
New time, new time
New time, new time & day

New time & age
New time & day
New time & age
New time & day
