This one is special for all the ladies
You never know I was that type of man

So good so right, so good so
So good so right, so good so
So good so right, so good so
So good so right, so good so

Feel so good about something so right
Could it last another night?
Feel so good about something so right
Could it last another night?

Feel so good about something so right
Could it last another night?
Feel so good about something so right
Could it last another night?

But you keep on watching the time
Wondering what's on my mind
So you say you can't stay too long
'Cause you know what I'm all a

What I'm all about, what I'm all about?
I don't have to sing and shout
"What I'm all about?"
You know what I'm all about

Feel so good about something so right
Could it last another night?
Feel so good about something so right
Could it last another night?

Feel so good about something so right
Could it last another night?
Feel so good about something so right
Could it last another night?

Yes, it's the truth, it's the fact
I'm coming to you straight from the back
In a mastering room style, don't be shy
Don't you lie, look into my eye

I'll tell you why, I'll teach you about
Feeling high

Feel so good about something so right
Could it last another night?
Feel so good about something so right
Could it last another night?

Feel so good about something so right
Could it last another night?
Feel so good about something so right
Could it last another night?

Never before have you seen this, so I say
This feeling sink within my head, oh yeah
Oh yeah, never before have you believe it
So I mean what I say, you just got to be yourself

Feel so good about something so right
Could it last another night?
Yeah, feel so good about something so
Right could it last another night

A feel so good about something so right
A feel so good about something so right
Could it last another night?

So good so right, so good so
So good so right, so good so

Yes, it is the strife of my life
To explain what's in my brain
If you believe what I say, baby, baby
A check in, check in, check, check

Check in, check in, check in, check in
Check in, a check in, check in, check into my hotel

A feel so good about something so right
Could it last another night?
A feel so good about something so right
Could it last another night?

So good so right, so good so right
So good so right, so right, I feel so good
Could it last another night?

A feel so right
Could it last another night?
A feel so good

Something so right, so good
Lord, I said, I feel so right

A feel so good
Oh, could it last another night?
A feel so right
Oh, could it last another night?

A feel so good
Oh, could it last another night?
A feel so right
Oh, could it last another night?

So good so right, so good so right
So good, so good so right
