Performed by Third Eye Blind)

Since I was a little kid I tried to get out of my head

Trapped on the playground I would stare at the sky

I didn't even know why

But daily life it took an evil shape

Some conformed

And some tried to escape

And those are the misfits that I have known

Like a sock in the eye

They feel it to the bone

It's a joke that we all know

We're the bait in a horror show

We are all alone In a horror show

Banish me and mine to outer space

I'd shoot there in a second

Just for the breathing space

I'd put the punks on the moon

For head-room

Mods rule the galaxy

That's the way I think things should be

The creep in you is the creep in me

Gravity presses down like a lie
We want wild sex
But we don't want to die
Do you feel there's no where to go
We're the bait in a horror show
And we're all alone in a horror show
Yeah we are all alone in a horror show
If I spoke in words of only hate
Tell me would you now
Could you relate?
And I,
I wish I met Lou Reed
Out on his darkened sea
'Cause I felt it when his blood would flow
But it doesn't take a thousand years to know
That ship burned a long time ago
And we're all alone in a horror show
We're all alone
We're on our own
In a horror show
