Hello, hello, hello, hello.  
Hello, hello, hello, goodbye

I can see inside of you  
you alone are my chameleon  
I know how you lied to me  
you will know what you're meant to be  
I have been inside of you  
you will know you belong to me... to me... completely

I have been inside of you  
you will know the price of freedom  
you need to know you lied to me  
you will know what you tried to me  
you will know what you tried to be  
I have cleansed inside of you  
now you scream inside of me

Hey man so long... they caught you out  
Hey man so long... so say good night  
so long, so long... sayonara.

I have screamed inside of you  
you belong alone to me  
you don't know what you want chameleon  
It's so wrong, so unfamiliar

Hey man so long... they caught you out  
hey man so long... so say good night

Hello, hello, hello, hello, hello  
Hello, hello, hello, goodbye  
they changed your mind

Hey man so long... so say goodbye... bye, bye

So long... sayonara
