Well honey, honey  
Have you done your good deed today?  
You open up my green heart  
With the things that you say  
Your melody is strong, so your song never ends  
The drama has changes but you're still my best friend  
Your my diamond  
Your my diamond

Well darling, darling lifes short  
and its hard  
and its gray  
you make me see love where i'm inclined to hate  
Your way with the boys  
how you settle us down  
You cut through the noise in my head  
I have found  
Your my diamond  
Dancing diamond  
So just hold me close, and don't ever let go

Lady lady, hush hush 'cause the world can be sad  
If it starts to scare ya, think of all that we've had  
The aisle we walk has no regrets  
As long as your with me, you know i'm all set

Singing Diamond, your my diamond  
Your my sweet beauty diamond  
Miracle Diamond  
Sweet honey Diamond  
Miracle diamond  
Yeah Yeah

So baby baby come come  
Keep it close to home  
The saxophone and a slide trombone  
I hope we die the same night  
When we we're 99  
I hope we go in our sleep  
As my diamond girl shines

Singing Diamond, you're my diamond  
You're my sweet beauty diamond  
Mircale diamond

Diamond, you are my diamond  
You're my sweet beauty diamond  
Miracle diamond  
Sweet honey Diamond  
Miracle diamond  
Sweet beauty diamond  
Mircale diamond

You're my miracle  
Always been my miracle, yeah  
Cuz you've always been my miracle  
Every night and day  
All the things you've ever say  
Yeah, Yeah  
Always have been my miracle, Yeah  
Everything you say  
You've always been my miracle
