Descend eternally, a passage of regret  
Only now the rush of wind, a tunnel infinite...  
A vacuum suffocates, to hope no longer cling  
Embrace the everlast, the light is vanishing...

Do not wish upon the well...  
How ripe and sweet the fruit  
Now a lecher of good will,  
Infected and seduced

Begin the bleeding  
First extend a gesture kind, now the consecrate  
By thy nymph of babylon...

Resistance fades to hate

Tooth and nail i am inhaled  
I fall into the well  
Deeper down, i am the clown  
I seem to love this hell

I can't seem to save myself  
And though i have my sight  
I don't choose to suffer silent  
I haven't yet to fight

Descend eternally, your end has just begun...  
Falling endlessly, a well of misfortune...
