

Zion I

"Student Life"

Visit "[Student Life](#)" on MotoLyrics.com

I can't stop what I am feeling
If only you would start believing
We could be that what others dream of
Only to refind that magic in our love

Chorus:

We had some good times
and then with no sign
you walked down stover
and now its over
I thought that we were
all that and then more
and on the same day
you sent me on my way

We were so close to that era
I don't know why you're not my hero
but I do know how much I need you
I hear you say, you feel the same way

chorus

You want time to think your mind
my wait is in pain will be in vain
now we're done you've found someone
he can't give you all that I do

chorus
