I wish I had shut my mouth
But still the words came out, that night
How I fell in love with you but I no longer recognize
The one that use to make me feel alive

I don't wanna sing this song to make you feel better
Not even a desperate try to get back together
All I am is kinda lost right now
I really thought we'd last forever

There was a three year match
Of a nine year difference
A case of bad timing after all
Tell me, maybe it is me who' changed and I don't
wanna recognice
The one that use to make me laugh and cry

I don't wanna sing this song to make you feel better
Not even a desperate try to get back together
All I am is kinda lost right now
I really thought we'd last forever
Oh, I am kinda lost right now
I really thought we'd last forever

If we could do it all again
We'd probably do it all the same
That's why I'm laying here alone in bed
I feel lucky for the times we had

I don't wanna sing this song to make you feel better

I don't wanna sing this song to make you feel better
Not even a desperate try to get back together
All I am is kinda lost right now
I thought we'd last forever

Sing this song to make you feel better
I'm so lost right now
I thought we'd last forever
I am so lost right now
Cos I feel we'd last forever
