Growing tide of convergence
Won't turn around and let you float
You're slated for submergence
When this giant wave will sink your boat

This surge rolls up like a scroll
You'll be swept along by a flash flood
You'll feel like a fish in a bowl
The media magnates are playing God

They're playing God
Playing God

Don't give up,
For this is the time it washes up at your feet
Swiftly withdraw and run
Before their takeover is complete

Make your voices heard and refuse
To mass consume 'cause they told you to
No wonder why you feel so confused
When all you got is their point of view

Their point of view!

You're taken by the tide
I'm taken by the tide
We're taken by the tide
