"The Years"

Visit "[The Years](#)" on MotoLyrics.com

Down, deep inside the emotions of your heart

There is something difficult to start

When the daylight comes to an end

So you fall down

Never looking upwards at the sky

Always looking back to your wild days

When you were alone in the dark

BRIDGE:

Don't close your eyes

It's time to stop wasting your life

Because as time goes by

The years go by without you

CHORUS:

Alone tonight

Live on, hit the streets, alright

Alone tonight

Alone till the morning light (x 2)

Hit the streets, alright

Hit the streets, alright

Look at the world that's run away from you

The people that never smile at you

'Cause you want to be the only one

BRIDGE

CHORUS (x 2)

Hit the streets, alright

Hit the streets, alright

CHORUS TO FADE
