You save your money, I go in debt
You go on living, I can't forget
You've made your mind up, I haven't yet
We've got that opposite attraction
We're not alike, you and me
But I like you and me
Opposite attraction

You tend to follow, I'd rather lead
You watch the telly, I always read
You like to haggle, I just concede
We've got that opposite attraction
We're not alike, you and me
But I like you and me
Opposite attraction

You like the daytime, I love the night
You keep your head on, I get uptight
You use your left brain, I use my right
We've got that opposite attraction
We're not alike, you and me
But I like you and me
Opposite attraction

You love to chase me, I can't be caught
You buy me flowers, I can't be bought
But if you want me, then me you've got
We've got that opposite attraction
We're not alike, you and me
But I like you and me
Opposite attraction
