Freedom seekers running at the speed of sound  
Black top rangers workin' hard to keep you down  
Demon speeders tear across the land  
Move in to high gear tryin' to outrun the man

Rough riders, horsepower hangin' on to the reins  
On fire, hot wired transmission to the brain  
I think I'm goin' insane

(Chorus)

Red line highway, a flash of light kick in the overdrive  
Red line highway, gotta make it to the other side

Speedway junkies disciples on a road of rage  
Rearview reaper if he gets ya it's an early grave  
Radar gunners ahhhh  
Last lap shootout comin' to the end of the line  
White lightning fuel injection runnin' through my veins  
Igniting, full throttle on the devil's terrain  
We're going down in flames

Chorus)

Ain't gonna stop for nothing', I can feel my body  
pumpin'  
Gasoline . . . Cause I'm a killing machine  
A driving superpower, I do a million miles an hour  
And there's no way of catching me

(Chorus)
