(Chorus)

I want to know, do you feel the way I do?
And I want you to show me, if it's real you feel it too

What drives you crazy?
What turns you on?
So now come on and play me
'Cause when the morning comes I'll be gone
All we have is tonight, I don't want to lose the moment

(Chorus)

I want to know, do you feel the way I do?
And I want you to show me, if it's real you feel it too

Don't hold back now
Let me hear you scream
You know it's now or never
Cause what happens tonight becomes tomorrow's
dream
And you wonder to yourself, did it ever really happen?

(Chorus)

You can say your heart's not jumpin'
Oh, but you feel it pumpin'
Is it driving you insane?
"Cause I'm feeling just the same, now tell me
Are we having some fun yet?

(Chorus)
