So take your time  
I wonder if you're her just to use my mind  
Don't take it slow  
You know i got a place to go You always do that  
something  
Something i'm not quite sure of  
So just for today let it go slide away  
CHORUS  
I was thinking maybe we could go outside  
and let the night sky cool your foolish pride  
Don't you feel alive these are your times and our highs

so take your time  
i wonder which cup you'll drink from i hope it's mine  
cause you always do that something  
something i'm not quite sure of so just for today let it  
go slide away  
cause i read your mind  
i read it because it takes me where i can find  
cause you always do that something  
something i'm not quite sure of  
oh just for today let it go burn away  
REPEAT CHORUS  
slide away burn away slide away burn away  
i read your mind i read your mind  
cause it takes me where i can hide  
oh come on and feel alive yeah  
REPEAT CHORUS
