i don't wanna live underground
i just wanna make it home tonight
no one can see her and no one can find her
she rides a paper plane

the television is their drug
they gave their eyes to the reich
no one can see her and no one could find her
she was a junkie

an alpha monkey
an electronic nebula
somewhere in the quantum land
human space volt

holly water
need some microwaves
for redemption (x2)

no one can see her and no one could find her
she was a junkie
an alpha monkey
an electronic nebula

somewhere in the quantum land
human space volt
holly water
need some microwaves
for redemption (x4)
