Been a long road called reality to get to here and now
Some times I wonder how we made it through
somehow
Looking back through history at everything we've done
We say we've come so far, but I know we've just begun

This is one night in a million
Got a long way to go
Heaven in the distance
Hell just down the road
We are searching for an answer
Trying to find a way
One night in a million
Lord help us see that day

The Alpha, the Omega, the Beginning and the End
Tonight is just a moment in the great eternal plan
We are God's children, living to be free
And in the name of Jesus we will know real liberty

This is one night in a million
Got a long way to go
Heaven in the distance
Hell just down the road
We are searching for an answer
Trying to find a way
One night in a million
Lord help us see that day

One night in a million
Got a long way to go
Heaven in the distance
Hell just down the road
We are standing on the promises
Believing in His Word
One night in a million
We are living for the Lord

Jesus our Lord
Jesus our Lord
He is our Lord
