I've been thinking lately about You
When it hit me from nowhere, out of the gray
Everything's been coming together
Now that I've moved beyond myself
And wrapped my head around something else

It's not about me, it's gotta be about You
(Everyday and)
All I wanna see is who You're turning me into
(In every way and)
I will not forget that You said, You'd always lead me
through
To who I wanna be, making every part of me about You
Every part of me about You, yeah yeah

I've been spending so much time disconnected
(Disconnected)
I was searching for perfection inside myself
But I finally turned away from my reflection
(My reflection)
Saw Your world outside my door
And everything that I'd been looking for

It's not about me, it's gotta be about You
(Everyday and)
All I wanna see is who You're turning me into
(In every way and)
I will not forget that You said, You'd always lead me
through
To who I wanna be, making every part of me about You

So I'll lay down my pride 'cause You laid down Your life
And I'm giving up all that's holding me back
And clinging to You and You'll lead me through
'Cause You always do

I will not forget that You said, You'd always lead me
through
To who I wanna be, making every part of me about You

It's not about me, it's gotta be about You
(Everyday and)

All I wanna see is who You're turning me into
(In every way and)
I will not forget that You said, You'd always lead me
through
To who I wanna be, making every part of me about You
Every part of me about You

It's all about me, it's all about You
It's all about You
All about You, it's all about You
