"Here And Now (Turbo Radio Mix)"

Here and now, we will stand with one voice, hand in
hand
We will never back down, we will never give in
Here and now, we will sing with one voice and we bring
Our lives as an offering, we bring You everything

Here I am, You made it all so clear
I understand, I am just a stranger here

I will leave it all behind, so all that's left is gone
And I know about my mind, straight into your arms

Here and now, we will stand with one voice, hand in
hand
We will never back down, we will never give in
Here and now, we will sing with one voice and we bring
Our lives as an offering, we bring You everything

Oh, give me all the depth of the sweetest dreams
So much farther that I see, oh, You are eternal life
Where could I, where could I, where could I go?
Well, I got You in the light with everybody by my side
Lord, it's clear, I needed day and night

So leave it all behind to all that's left is gone
And we'll go with our might straight into your arms

Here and now, we will stand with one voice, hand in
hand
We will never back down, we will never give in
Here and now, we will sing with one voice and we bring
Our lives as an offering, we bring You everything

Lord, I give my life, no matter what it takes
'Cause You gave it all for me
With all of our hearts, we sing, with all of our joy, we
bring
Everything, we will bring, our everything, everything

Here and now, we will stand with one voice, hand in
hand
We will never back down, we will never give in

Here and now, we will sing with one voice and we bring
Our lives as an offering, we bring You everything

We will stand with one voice, hand in hand
We will never back down, we will never give in
Here and now, we will sing with one voice and we bring
Our lives as an offering, we bring You everything

Here and now, here and now, here and now
