Verse 1:

When you fall in love
You give it all you can
You try not give up
But they run to the next man

Their feelings have changed
But yours are still the same
Don't keep on pushing
Cause your heart feels the pain

CHORUS:

Love hurts
It doesn't feel good
Love hurts
I should've understood
Love hurts
How can love be so blind?
Love hurts
How could you push our love aside?

Verse 2:

Your love is like a flame
It burns who's the blame
I thought I was strong
But I guess I was wrong

Someday I'll get over you
And start true love anew
I know I had to learn
Still my hearts been burn

CHORUS:

Love hurts
It doesn't feel good
Love hurts
I should've understood

Love hurts
How can love be so blind?
Love hurts
How could you push our love aside?

BRIDGE:

When you feel you can't go on
Just hold on and be strong
True love will come your way
Just wait until that day

You'll find your happiness
And all your joyfulness
True love forever more
Because you opened up that door

CHORUS:

Love hurts
It doesn't feel good
Love hurts
I should've understood
Love hurts
How can love be so blind?
Love hurts
How could you push our love aside?

Repeat Chorus
