He brought a box of candy, oh yeah
Her favorite kind of candy
But she just turned me a-away, ah-ha-ha
He brought a box of candy, oh yeah
Thought that would make things dandy
But she just turned and walked away

Mmm, the only girl I care for
Said I could see her no more
Last night I cried the whole night through, ah-ha-ha
He brought a box of candy, oh yeah
Thought that would make things dandy
But she just turned and walked away

I tried calling on the phone
She's never at her home
She's out right now with someone new, ah-ha-ha
He brought a box of candy, her favorite kind
Her favorite kind of candy
But she just turned and walked away

One day she loves me, the next day she walks away
How can I hug her, when all she wants to do is play
I guess I'll try sending flowers
I can't stand these lonely hours
And I can't get her out of my mind, oh no
He brought a box of candy, her favorite kind
Her favorite kind of candy
But she just turned and walked away

I brought a box of candy
Her favorite kind of candy
Thought that would make things dandy
Her favorite kind of candy
I guess that I'll try flowers
I can't stand these lonely hours
