"Human Case"

I was caught on a sunbeam,
And the beauty made for tears of bliss on my face,
Which created a prism,
Bending light fantastic,
Oh, what grace,
Said, "Welcome to the human race,
Welcome to this human case."
She came in on a moonbeam,
In and out of the shadows,
Oh, how she danced.
She was caught in the serious moonlight,
It was easy to tell at first glance,
Said, "Welcome to romance,
You're welcome to this dance."
They usually come and go,
But, this one has a different glow,
In the hidden regions,
Of her soul.
They rode out on a daydream,
Up and into the heavens,
How their light shone,

Which reflected on billions of people,
Now they're never alone,
Said, "Welcome to the show,
Sit back and watch it grow."
They usually come and go,
But, this one has a different glow,
In the hidden regions,
Of her soul.
