THERE'S HONEY ON THE MOON TONIGHT

Vincent Lopez

There's honey on the moon tonight,

It's a sin if we waste it.

Come along and let's taste it

Had it ordered for you.

There's honey on the moon tonight,

Though a little off season

It is there for a reason

For a dream to come true.

We don't need a boat, motor car or bus,

Just any old bench in any old park

Is made to order for us.

There's honey on the moon tonight,

And I'm out to enjoy it

What a night to enjoy it

With honey like you
