Feel the fibers forgive me what did you say.
This is all new but i think we're ok.
Poke a pose in the mirror now you're prinked and
pruned.
Now we pitter patter past your parent's room.
I know what's weathered white is bright and breathing.
Dance around in circles there are no walls.
I know today tonight tomorrow till then i'll make the
moment.
Du du d du
Maybe bebop or ragtime tell a story too.
These old records are coolest of the new.
Sugar puts on a show and she sings a song.
If we hear a noise we'll put our clothes back on.
I know what's weathered white is bright and breathing.
Dance around in circles there are no walls.
I know today tonight tomorrow till then i'll make the
moment.
Du du d du
I know what's weathered white is bright and breathing.
Dance around in circles there are no walls.
I know today tonight tomorrow till then i'll make the
moment.
