Fire in the sky, a sign from above
Noonday light dies, red sky dawns like blood
Symptoms unknown, no explanation
Your faces like stone, invasion???'s begun
That light in the sky is my soul
My destiny, I???'m doomed to follow
I???'m sentenced to wander below
Strange masters have taken control
From the void
They rule my soul
Eternal unrest, zombi astral
Perpetual undeath, an evil angel
Amnesia, eclipsing the mind
Domination complete, by alien kind
Master of puppets, remotely control
These marionettes, usurping your ghost
That light in the sky is my soul
My destiny, I???'m doomed to follow
I???'m sentenced to wander below
Strange masters have taken control
From the void
They rule my soul
That light in the sky is my soul
My destiny, I???'m doomed to follow
From the void
They rule my soul
From the void
They rule my soul
Eternal unrest, zombi astral
Perpetual undeath, an evil angel
Eternal unrest, zombi astral
Perpetual undeath, an evil angel
