### "Way Away"

Visit "[Way Away](#)" on MotoLyrics.com

Where are you and where are you heading to?  
I think it's odd that we both caught the flue  
Bored and sick, bound in blankets  
If you get home I'll get good quick is all I know

Come back where you wanna be  
Why you wanna be way out there?  
Meet me where you wanna be  
Why you wanna be way away?

Distance sucks!  
Cold's keeping us in the loop with coughs and soup  
and tetris  
Stay in tune  
I'll stay in touch with you  
I'll keep it real and you keep cool is all we can do

Come back where you wanna be  
Why you wanna be way out there?  
Meet me where you wanna be  
Why you wanna be way away?

It's just whenever I had a fever you become my favorite  
doctor  
Now that we're missing our own prescription, arrive my  
bedside  
Best medicine

Come back where you wanna be  
Why you wanna be way out there?  
Meet me where you wanna be  
Why you wanna be way away?

Why you wanna be?  
Yeah hy you gotta be way away?
