"Don't Go"

Taking everything I see
Walking on the ground happy
Waiting for the dare to start
Cause something's got me all alone

Oh no don't go
Throw away undo it play the bass
I know if she goes
Gonna be left on this pedestal

Take the weight up off your mind
Dreaming for the seventh time
If we wake now we'll believe
Either way it's fun to dream

Oh no don't go
Through a world undo it baby
I know if she goes
Gonna be left on this pedestal
