This was the last time  
You had your chance  
The pain you bring on others  
In vain

Now it is over  
You've lost it all  
You brought this on yourself  
Now face it

Just one moment  
Let it all out

It is now or never  
And yet you're hesitating  
Choices are what makes us  
And you have clearly made yours

No more excuses  
Nothing to prove  
You show your colors  
You show them all

Who are you fooling?  
No one cares  
A lonely progress  
No guilt

Every moment  
Leave it be

And it is now or never  
And yet you're hesitating  
Choices are what makes us  
And you have clearly made yours

Wake up  
Hold your breath  
And see all that you'll never get  
Never more  
Your last betrayal

Make up  
Your mind now  
And see that you're still living a lie  
Realise who you are

It is now or never  
And yet you're doing nothing

It is now or never  
And yet you're hesitating  
Choices are what makes us  
And you have clearly made yours

How can you be this way  
When you have nothing more  
No love  
No loved  
No one to call a friend

Where did it go so wrong  
You only wished them well  
And yet  
Here you are  
Regretting everything that you did
