

Zona Jones "Two Hearts"

Visit "[Two Hearts](#)" on MotoLyrics.com

I was born a dreamer, seemed like every day
My mind came up with something new
But this time it's my heart with a dream that's here to
stay
There's a chance this one might come true

I can see me being with you for the rest of my life
Two hearts, one love
And I can see you loving me too, sure would be nice
Two hearts, one love, that's us

I can see my lucky stars when I gaze into your eyes
Twilight shadows hold us tenderly
It's so easy to imagine you here by my side
As I turn out the lights and fall asleep

I can see me being with you for the rest of my life
Two hearts, one love
And I can see you loving me too, sure would be nice
Two hearts, one love, that's us

I can see me being with you for the rest of my life
Two hearts, one love
And I can see you loving me too, sure would be nice
Two hearts, one love, that's us

Two hearts, one love
Two hearts, one love, that's us
