If you're not ready
a hard rain falls
you get in a situation

get a feeling there's no way out
you won't make it
oh
here you go

you go down
oh
you go down.

And then you're drivin' on a one-way street

did you notice you made a wrong turn ?
Then you call it a day you can't win

don't you feel it
oh here you go

you go down
oh
goin' down.

Easy now
don't loose hold
you will find a way

move it slow
can't let go
roll along.

Don't sing a sad song
don't you sing a sad song

when the night has come hold to the break of day.
sad song
don't you sing a sad song
-
don't you sing a sad

sad song -
and then you'll see the day

break of day comin' round
oh
day comin' round.

And when you're watching how the sun goes down

feel the bite of a cold
cold wind now.
Then you know it
you're gonna fall down
don't you do it

the break of day will come round
oh
don't you go down !

Easy now
don't lose hold
you will find a way

move it slow
can't let go
roll along.

Don't sing a sad song
don't you sing a sad song

when the night has come hold to the break of day.
sad song
don't you sing a sad song

-

don't you sing a sad
sad song -
and then you'll see the day

break of day comin' round
oh
day comin' round.
