just passed too bizzare
the organgrinder quips
locked inside a barricade
how could you get in
the admiral checks his thieves
to see what they'd done wrong
wrapped it up in silly paper
tacked it to the wall

he bore me
all could see
he bore me

he tries to get his armies outside the trail
he knows his better part is outside of bail

he found me
all could see
he bore me

ten pounds, ten pounds
ten pounds, ten pounds

the admiral checks the crowd
to see if they would mind
he knew it wasn't instigated
by his little frog
the rabbit chased the pig
around their parking lot
pony tail between his knees
customary sot

he bore me
all could see
he found me
all could see
he bore me
