"Please Come Down"

The stairs are missing a few steps
This wooden floor is just a wreck
Down in the streets two cops are kissing
The doorman sings and burns his tips

Please come down
(I'm begging, I want it)
The girl's in town
(I'm begging, I want it)
Can't she hear my moan

When a storm comes then you'll show up
Play with it with the biggest smile
So many things for me to learn
You'll be the first at the turnstile

Please come down
(I'm begging, I want it)
The girl's in town
(I'm begging, I want it)
Can't she hear my moan
