"Alone in the Dark"

Standing in a twilight zone, death or alive soulburning
Turning into dark, would have done everything just to
be a part
Useless and damned forever more tears pain crushed
On a shore of dignity
Hatress cold thousands devine

Feelings of unconsiness, defibrilate me, inject me, help
me
What's that all for can't stand this, frankly world
anymore
Black all my thoughts, my soul stand alone for what's
that all for

Help me, help me
Defibrilate me

Help me, help me
Defibrilate me

Help me, help me
