"Hold Me Up"

I know I should be happy
about the things I own
But they won't satisfy me
And still I feel alone

No, they won't help me now

Hold me up
I'm feeling down
Just a little bit, Just a little bit
Hold me up
I need you now
Just a little bit, help me find my way again

So they told you
Life is about to find a place
But I don't really get it
Cause I feel I'm out of space

My walls are closing in

Hold me up
I'm feeling down
Just a little bit, Just a little bit
Hold me up
I need you now
Just a little bit, help me find my way again

My walls are closing in

Hold me up.....
