Ambrosia, here for you
An angel will see you through
Do you feel it
Do you feel it

Forbidden fruit for you
The sweetness of something new
Do you feel it
Do you feel it

Just when you think you are falling

The beauty of small things
The joy it will bring
To you
You're going to make it out of here

The hurting soon be gone
I wish that for everyone
Do you feel it
Now you feel it

The beauty of small things
The joy it will bring
To you
You're going to make it out of here
I watch from the inside
The changes in your life
I know
You're going to make it out of here
