"Hold This Heart Together"

Visit "[Hold This Heart Together](#)" on MotoLyrics.com

I hear a sound
The sound of you and me colliding
Why does it hit so hard
Right from the very start
You were the one to lead me to the danger

Now the hurt why do I
Watch me now
'Cause you've got me falling

I need you to hold this heart together
Keep believing my love will last forever
I want you to show me something better
If only just for a day

So lead me astray
Just keep your eyes upon your own way
Why does it feel so good
Never been understood
You were the one to save me from the danger

I need you to hold this heart together
Keep believing my love will last forever
I want you to show me something better
If only just for a day

So if you walk away, I know
You keep me hanging on the bad times
Only the bad times
If you run away
Don't keep me hanging on the wrong side
Down on the wrong side

'Cause you've got me falling
