### "Red Light"

Visit "[Red Light](#)" on MotoLyrics.com

My baby left town and the mule laid down and died  
My baby left town and the mule laid down and died  
Baby left town, I laid down and cried

One, two, three four, five, six, seven, eight, nine ten  
Red light, red light... red light, red light

Venus was a woman, she had a whole lot of charms  
She got so much huggin', she wore out both her arms  
Red light, red light

Columbus was an explorer, the greatest of his day  
But he got all mixed up in Brooklyn and the poor guy  
lost his way  
Red light, red light

Napoleon was a soldier, the greatest ever seen  
But he learned all his manoeuvres along along with  
Josephine  
Red light, red light

King Arthur was a hero, he was known everywhere  
He had a round round table cause he couldn't stand,  
he couldn't stand, he couldn't stand a square  
Red light, red light  
Red light, red light.
